## Conventional Sounder Beacon C-9401

### Features and Benefits

1. Combined flashing high intensity LED beacon and sounder
2. Wall mount
3. Two part plug-in construction, no locking screw required
4. First fix base for easy and safe installation.

### Description

The conventional sounder beacon is suitable for warehouse, security post, schools and industrial area. The I-9401 is designed to meet the requirement of EN54

The unit is utilised a red plexiglass cover and a number of strong signal red LED, long-life and low consumption. Two part construction with base mounted termination allows easy installation and avoiding the wiring and connection problem associated with traditional sounder.

### Selection of compatible Control Panels

Compatible with all GST Conventional panel and GST Intelligent Fire Alarm Panels using sounder output and Intelligent Sounder Driver Module

### Technical Specifications

- Operating voltage: 24Vdc non-polarized
- Operating Current:  
24Vdc: Standby current 10mA  
Action current 160mA
- Operating temp: -10°C to +50°C
- Flashing Frequency: 20x180 per min.
- Alarm Volume (SPL): 90dB @ 1m
- Relative humidity: 95%
- Application: Indoor use
- Material and colour: ABS, ivorywhite, red plexiglass
- Wiring: 1 pair 24vdc supply  
Dimensions: 144x90x57mm

### Sounder Installation and wiring

The sounder beacon should be installed in compliance with all local codes or NFPA 72 National Fire Alarm Code, NFPA 70 National Electrical Code, BS5389 and EN54.
